

Gliesse
Pharmaceuticals —

Gliesse Pharmaceuticals (P) Limited

Company Introduction and Product List

Introduction

- Our core team have more than 35+ years of rich pharmaceutical expertise ranging in distribution & supply to top 100 MNC and Indian pharmaceutical companies.
- Our latest and most successful promoter group experience is that of actively co-founding and having worked in one of India's fastest growing publicly listed Pharmaceutical Company that also happens to be among the top 30 Pharmaceutical companies of Indian Pharmaceutical Market.

Gliese Pharmaceuticals is innovation focused company offering broad range of finished formulations and active pharmaceutical ingredients (APIs) for regulated, semi-regulated and non-regulated markets.

Quality Commitment

Accreditations:

EU GMP, PIC/S, WHO
GMP and Regional
GMPs Approvals

Dossier Readiness:

eCTD, ACTD and as per
Regional Specifications

Capabilities

- Gliesse Pharmaceuticals Private limited works on a unique business model. We work on exclusivity basis with many large pharmaceutical CMO and OEMs.
- Our unique business model is attributed to 3 major pillars:

Brand Name Generics

- Our Own Branded Generic Formulations in Emerging, Semi & Non Regulated Markets

Active Pharmaceutical Ingredients

- BULK Drugs - API & Intermediates exports

CMO for Global Generic Brands

- Generic Finished Formulation sourcing on exclusive partnership agreements for MNCs and Global Pharmaceutical companies on cost efficient model.

Our Expertise >>

Cost Advantage

Highly Competitive Products with Strong Backward Integration In API Sourcing

Export & Distribution

Exclusive Terms With CMO And Our Global Trade Partners

API with Regulatory Support

DMF / CEP Filing Available For Regulated, Semi Regulated And Non Regulated Markets

Dossier Readiness

Ready ACTD & eCTD Dossier, Availability For Many Products

Our Expertise >>

Products from Regulatory approved facilities

Tie-Ups With Accredited Manufacturing Sites For Niche Products Having EU-GMP, Health Canada, WHO GMP, PICS, US FDA, INVIMA, TGA Australia And Major Central African Nation Approvals (TFDA, PPB, DFML, NDA, PMPB, NAFDAC Etc

Regulatory Assistance

Support For Most Of The Markets

Sourcing of KSM's

Key Starting Materials For API's

Exclusive Sourcing

Exclusive Sourcing Of Key Intermediates From China

Quality Commitment

We remain committed to the highest levels of quality and always ensure that all our partner facilities, our offices and our R&D setup continues to meet the exemplary standards that are expected of a global pharmaceutical company. Our passion for quality goes beyond business and all global statutory requirements.

We engage only with experienced professionals and offer them growth opportunities through our ongoing quality programs. Our constant endeavour is to guarantee that our quality protocols are relentlessly benchmarked against global best practices. We strive to set our quality standards with the evolving dynamics of the global environment.

Facilities & Infrastructure

- At Gliese Pharmaceuticals, quality is at core focus.
- All products are manufactured in world-class infrastructure complying with latest regulatory and quality standards.
- All our associate manufacturing facilities are accredited by various regulated and semi-regulated regional FDAs, ensuring quality, compliance and dossier readiness as per country specific guidelines.

Facilities

FACILITY 1

General, Cephalosporin's and Beta-Lactum Oral Solids, Liquid and External Preparations facility

WHO GMP, NDA UGANDA, PPB KENYA, NAFDAC NIGERIA, PMPB MALAWI, FDA GHANA, TFDA TANZANIA, FDA PHILIPPINES, NMRA SRILANKA, SBDMA YEMEN, FDA MYANMAR

FACILITY 2

Small Volume Liquid Injectables and Ampoules facility

HEALTH CANADA & EUGMP and accredited with WHO GMP, PPB KENYA, FDA PHILIPPINES, TFDA TANZANIA, NDA UGANDA, NAFDAC NIGERIA, FMHACA ETHIOPIA

Facilities

FACILITY 3

Liquid, Dry Powder and Lyophilized Injectables facility

EU-GMP, TGA AUSTRALIA, COLOMBIA INVIMA, UKRAINE MOH, FMHACA ETHIOPIA, SRI LANKA NMRA, FDA PHILIPPINES, MOH SYRIA, PP KENYA, MOH CAMBODIA, DDA NEPAL and WHO GENEVA

FACILITY 4

Oral Solids and Liquids facility

UK-MHRA, EU-GMP, ANVISA, PICS, TGA AUSTRALIA, COLOMBIA INVIMA, WHO GMP

FACILITY 5

Biotech Facility with PFS, Dry Powder Injectables

Triggered US FDA, EU-GMP and accredited with WHO GENEVA, PICS, ANVISA, INVIMA COLOMBIA, NNHPD CANADA

Facilities

FACILITY 6

Nutraceutical Oral Solids, Softgels,
Liquid and Powder facility

WHO GMP, NDA UGANDA, PPB
KENYA, NAFDAC NIGERIA, PMPB
MALAWI, FDA GHANA, TFDA
TANZANIA, FMHACA ETHIOPIA

FACILITY 7

Oral Solids and Liquids facility

EU-GMP

FACILITY 8

Liquid, Dry Powder Injectables,
Hormonal Injectables and Veterinary
Injectables

Triggered US FDA, EU-GMP and
accredited with WHO GENEVA, PICS,
ANVISA, INVIMA COLOMBIA, NNHPD
CANADA

Facilities

FACILITY 9

Oral Solids, Liquids and Powders facility

Triggered EU-GMP and accredited with WHO GMP, MCAZ ZIMBABWE, NDA UGANDA, PPB KENYA, NAFDAC NIGERIA, TFDA TANZANIA, MOH VIETNAM, , MOH CAMBODIA, FDA MYANMAR and NMRA SRI LANKA

FACILITY 10

Softgels and Oral Solids facility

US FDA approval

Product Portfolio

- ☑ Oral Solids & Liquids
- ☑ Ointment & Creams
- ☑ Injectables
- ☑ Hormonal
- ☑ Oncology / Potent Molecules
- ☑ Sprays & Inhalers
- ☑ Nutraceuticals
- ☑ Cosmeceuticals
- ☑ Veterinary

Dossier Readiness:

ACTD, eCTD and Country Specific Dossiers

Therapeutic Categories

- Analgesics
- Anesthetics
- Antibacterials
- Anticonvulsants
- Antidementia Agents
- Antidepressants
- Antiemetics
- Antifungals
- Antigout Agents
- Anti-inflammatory
- Antimigraine Agents
- Antimyasthenics
- Antimycobacterials
- Antineoplastics
- Antiparasitics
- Antiparkinson
- Antipsychotics
- Antispasticity Agents
- Antivirals
- Anxiolytics
- Bipolar Agents
- Blood Glucose Regulators
- Blood Products Modifiers / Volume Expanders
- Cardiovascular s
- Central Nervous System Agents
- Dental and Oral
- Dermatological
- Electrolytes
- Enzyme Replacements / Modifiers
- Gastrointestinal
- Genitourinary Agents
- Hormonal
- Immunological Agents
- Metabolic Bone Disease Agents
- Ophthalmic Agents
- Otic Agents
- Respiratory Tract
- Sedatives/Hypnotics
- Skeletal Muscle Relaxants
- Therapeutic Nutrients

MAXIVIEW

Iohexol Injection USP 350 mg/ml
(IODINE CONTENT 350 MG/ML)

100ml Vial

Not for intrathecal use. Serious injury may occur if given by intrathecal route.

For Intravascular Administration Also suitable for Computed Tomography.

Gliesse Pharmaceuticals

Composition: Each 100ml contains Iohexol USP 350 mg.

Other Ingredients used: Tromethamine USP, Citric Acid USP, Hydrochloric Acid USP.

Iodine Content 350 mg/ml: Each bottle of 100 ml contains equivalent of 35.0 g iodine.

Dosage: As directed by the Physician.

For Indications, Contraindications, Dosage Instructions for use and Warning: See enclosed leaflet.

Before using check visually for the absence of particulate matter. The bottle once opened is to be used immediately.

Not to be used if solution is discoloured or contains a precipitate.

Store at controlled room temperature, protected from light & secondary agents. Do not freeze.

CAUTION: Not to be sold by retail without the prescription of a Registered Medical Practitioner.

GLINOX

Low Molecular Weight Heparin

60mg/0.6mL

Single Dose Pre-filled Syringe contains: 60mg / 0.6mL (6000 anti-factor Xa I.U./0.6mL)

For Subcutaneous use only

Gliesse Pharmaceuticals

Composition: Each 0.6mL single-dose syringe contains Enoxaparin Sodium IP 60 mg.

NOT FOR INTRAMUSCULAR ROUTE.

Storage: Store below 25°C. Store protected from light. Do not refrigerate or freeze.

Caution: Do not use the solution if it contains visible particulate matter.

Keep out of the reach of children.

For Further information see enclosed package insert.

Dosage: As directed by the Physician.

GLEVET

Levetiracetam Tablets USP 500 mg

5 x 10 TABLETS

Gliesse Pharmaceuticals

Composition: Each film coated tablet contains Levetiracetam USP 500 mg. Excipients: Colloidal Lactose of Erythrosine.

DOSAGE: As directed by the Physician. Preserve in light containers. Store at controlled room temperature. Keep all medicines out of reach of children.

CLEANSCAN

Gadopentetate Dimeglumine Injection USP

15ml Vial

Contrast Medium for Magnetic Resonance Imaging

For Intravascular use only

Gliesse Pharmaceuticals

Composition: Each 15ml contains Gadopentetate Dimeglumine 480 mg.

Other Ingredients used: Tromethamine USP, Hydrochloric Acid USP.

Procedure: To be administered by trained medical personnel (radiologists) using aseptic technique. The vial once opened is to be used immediately. Do not refrigerate.

Storage: Store at controlled room temperature. Do not freeze.

Not to be used if solution is discoloured or contains a precipitate.

Store at controlled room temperature, protected from light & secondary agents. Do not freeze.

ULTRAVIEW

Iodixanol Injection USP 320 mg/ml

100ml Vial

Sterile, Non-ionic, isosmolar contrast medium

Solution for Injection (For intra-arterial, intra-vascular use only)

Gliesse Pharmaceuticals

Composition: Each 100ml contains Iodixanol USP 320 mg.

Other Ingredients used: Tromethamine USP, Citric Acid USP, Hydrochloric Acid USP.

Procedure: To be administered by trained medical personnel (radiologists) using aseptic technique. The vial once opened is to be used immediately. Do not refrigerate.

Storage: Store at controlled room temperature. Do not freeze.

Not to be used if solution is discoloured or contains a precipitate.

Store at controlled room temperature, protected from light & secondary agents. Do not freeze.

MAXIVIEW

Iohexol Injection USP 350 mg/ml
(IODINE CONTENT 350 MG/ML)

Non Ionic, Water Soluble Contrast Medium

50ml Vial

Not for intrathecal use. Serious injury may occur if given by intrathecal route.

For Intravascular Administration Also suitable for Computed Tomography.

Gliesse Pharmaceuticals

Composition: Each 50ml contains Iohexol USP 350 mg.

Other Ingredients used: Tromethamine USP, Citric Acid USP, Hydrochloric Acid USP.

Iodine Content 350 mg/ml: Each bottle of 50 ml contains equivalent of 35.0 g iodine.

Dosage: As directed by the Physician.

For Indications, Contraindications, Dosage Instructions for use and Warning: See enclosed leaflet.

Before using check visually for the absence of particulate matter. The bottle once opened is to be used immediately.

Not to be used if solution is discoloured or contains a precipitate.
